Any group of individual objects which are represented as a single unit is known as the collection of the objects. In Java, a separate framework named the "Collection Framework" has been defined in JDK 1.2 which holds all the collection classes and interface in it.. The Collection interface (java.util.Collection) and Map interface (java.util.Map) are the two main "root" interfaces of ...

Be fast or be last! In Cubitos, players take on the role of participants in the annual Cube Cup, a race of strategy and luck to determine the Cubitos Champion. Each player has a runner on the racetrack and a support team, which is represented by all the dice you roll. Each turn, you roll dice and use their results to move along the racetrack, buy new dice, and use abilities &mdash; but you ...
