In this riveting popular history, the creator of *You Must Remember This* probes the inner workings of Hollywood's glamorous golden age through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinsteins there was Howard Hughes—the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes—perhaps more than any other filmmaker of his era—commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these accessess would not escape his clutches. Vivid, perceptive, timely, and ridiculously entertaining, *The Seducer* is a landmark work that examines women, sex, and male power in Hollywood during its golden age—a legacy that endures nearly a century later.

Penetrating the mythology surrounding the bizarre life of the billionaire businessman, a Pulitzer Prize-winning investigative team portrays Howard Hughes as a man who, in time, came to be ruled by his madness

A test pilot for Howard Hughes separates fact from fiction to tell the inside story of the aviation genius who set speed records in the 1930s and went on to develop some of America's most famous aircraft and weapons. George Marrett draws on his wealth of experiences and those of other Hughes confidants to take readers inside Hughes's complex world—a world that has kept its secrets for nearly six decades. Both a gifted storyteller and a top-notch aviator himself, having tested forty types of military aircraft and logged eight thousand hours in the air, the author integrates stories of Hughes the ace pilot with Hughes the designer and businessman who became America's first billionaire. Through revealing, humorous, and sometimes tragic stories, Marrett provides a full picture of the elusive Hughes despite his obsession with working in secrecy. The author tells of Hughes's insistence on personally test-flying every plane he built and of the scores of aircraft Hughes purchased, borrowed, flew, and then stored all over the country. The author also reveals details of the top-secret airfield that Hughes owned in Culver City just a few miles from the Los Angeles airport. Marrett's narrative, as intriguing as its subject, begins in the 1920s, when Hughes learned to fly at the Santa Monica airport, continues into the 1940s, with his famous flight of the Spruce Goose, and follows into the post-World War II era and the invention of airborne radar at Hughes Aircraft Company. Marrett then moves into the 1950s at the Culver City airport where he later tested weapon systems that are still in use by the U.S. military. With the publication of this book, Marrett helps set the record straight about Hughes the aviator and the contributions he made to the development of aviation.
