There is a vacuum of leadership in many of our major institutions: government, education, business, religion, the arts. This crisis has arisen in part because many of those institutions have been reinvented with the technological revolution we are experiencing. Scientific progress in general, and technological progress in particular, has been seen as a solution to many of our problems, and technology can distribute the answers to those problems far more quickly and efficiently across the globe. But in the midst of this technological boom, people are becoming isolated from each other. What's needed is a new type of leader -- one who can inspire and motivate others in the new virtual world while never losing sight of the timeless leadership principles. In this book, readers can learn all the secrets of leadership mastery: * Gain the respect and admiration of others using little-known secrets of the most successful leaders. * Get family, friends, and co-workers to do what you ask because they want to do it, not because they have to. * Respond effectively when under crisis using proven techniques for thinking clearly and reducing anxiety under pressure. NAMED A BEST BOOK OF THE YEAR BY THE WASHINGTON POST and REAL SIMPLE A profound and enchanting new novel from Booker Prize-longlisted author Niall Williams about the loves of our lives and the joys of reminiscing. You don't see rain stop, but you sense it. You sense something has changed in the frequency you've been living and you hear the quietness you thought was silence get quieter still, and you raise your head so your eyes can make sense of what your ears have already told you, which at first is only: something has changed. The rain is stopping. Nobody in the small, forgotten village of Faha remembers when it started; rain on the western seaboard was a condition of living. Now--just as Father Coffey proclaims the coming of electricity--it is stopping. Seventeen-year-old Noel Crowe is standing outside his grandparents' house shortly after the rain has stopped when he encounters Christy for the first time. Though he can't explain it, Noel knows right then: something has changed. This is the story of all that was to follow: Christy's long-lost love and why he had come to Faha. Noel's own experiences falling in and out of love, and the endlessly postponed arrival of electricity--a development that, once complete, would leave behind a world that had not changed for centuries. Niall Williams' latest novel is an intricately observed portrait of a community, its idiosyncrasies and its traditions, its paradoxes and its inanities, its failures and its triumphs. Luminous and otherworldly, and yet anchored with deep-running roots into the earthy and the everyday, This Is Happiness is about stories as the very stuff of life: the ways they make the texture and matter of our world, and the ways they write and rewrite us.
