Good Manufacturing Practices (GMP) is a system that ensures manufacturing products, such as food, cosmetics, and pharmaceutical goods, are consistently produced and controlled according to set quality standards. GMPs examine and cover every aspect of the manufacturing process to guard against any risks that can be catastrophic for products, such as cross-contamination, adulteration, and mislabeling.

What is GMP (Good Manufacturing Practices)? | SafetyCulture

Good Manufacturing Practices (GMP) memuat persyaratan minimum yang harus dipenuhi sesuai yang tertuang dalam Title 21 Code of Federal Regulation (CFR) part 110 “ Good Manufacturing Practices in Manufacturing, Packing, or Holding Human Food ” and “ General Principles Food Hygiene, WHO/FAO International Code Practice ” . Implementasi yang efektif dari sistem manajemen ini dapat tercapai jika penerapan konsep Hygiene & Sanitation mampu memberikan keyakinan dan manfaat dalam menjamin dan ...
